Section	Page
Executive Summary	ES-1
1.0 Introduction	1-1
1.1 Introduction	1-1
1.2 Purpose and Scope of this Technical Report	1-1
1.3 Organization of this Technical Report	1-3
2.0 Project Alternatives	2-1
2.1 Introduction	2-1
2.2 Project Features	2-1
2.2.1 Water Treatment Plants and Associated Facilities	2-1
2.2.2 Diversion Structures	2-1
2.2.3 Aqueducts	2-2
2.2.4 Aquifer Storage and Recovery	2-2
2.2.5 Water Acquisition	2-2
2.2.6 Fish and Wildlife Enhancements and Mitigation	2-2
2.3 Preferred Alternative–River with Local Plants	2-5
2.3.1 Water Treatment Plants and Associated Facilities	2-5
2.3.2 Diversion Structures	2-14
2.3.3 Aqueducts	2-14
2.3.4 Aquifer Storage and Recovery	2-14
2.3.5 Water Acquisition	2-15
2.3.6 Fish and Wildlife Enhancements and Mitigation	2-15
2.3.7 Standard Construction and Operating Requirements	2-16
2.3.8 Rio Grande Flows	2-16
2.4 River with Year-Round Lower Plants Alternative	2-17
2.4.1 General Description	2-17
2.4.2 Water Treatment Plants and Associated Facilities	2-17
2.4.3 Diversion Structures	2-17
2.4.4 Aqueducts	2-17
2.4.5 Aquifer Storage and Recovery	2-18
2.4.6 Water Acquisition	2-18
2.4.7 Fish and Wildlife Enhancements and Mitigation	2-18
2.4.8 Standard Construction and Operating Requirements	2-18
2.4.9 Rio Grande Flows	2-18
2.5 River with Combined Plant Alternative	2-18
2.5.1 General Description	2-18
2.5.2 Water Treatment Plants and Associated Facilities	2-18
2.5.3 Diversion Structures	2-19
2.5.4 Aqueducts	2-19
2.5.5 Aquifer Storage and Recovery	2-19

2.5.6 Water Acquisition	2-19
2.5.7 Fish and Wildlife Enhancements and Mitigation	2-19
2.5.8 Standard Construction and Operating Requirements	2-19
2.5.9 Rio Grande Flows.....	2-20
2.6 Aqueduct with Local Plants Alternative	2-20
2.6.1 General Description.....	2-20
2.6.2 Water Treatment Plants and Associated Facilities	2-20
2.6.3 Diversion Structures	2-20
2.6.4 Aqueducts.....	2-20
2.6.5 Aquifer Storage and Recovery	2-21
2.6.6 Water Acquisition	2-21
2.6.7 Fish and Wildlife Enhancements and Mitigation	2-21
2.6.8 Standard Construction and Operating Requirements	2-21
2.6.9 Rio Grande Flows.....	2-21
2.7 Aqueduct with Combined Plant Alternative	2-21
2.7.1 General Description.....	2-21
2.7.2 Water Treatment Plants and Associated Facilities	2-21
2.7.3 Diversion Structures	2-22
2.7.4 Aqueducts.....	2-22
2.7.5 Aquifer Storage and Recovery	2-22
2.7.6 Water Acquisition	2-22
2.7.7 Fish and Wildlife Enhancements and Mitigation	2-22
2.7.8 Standard Construction and Operating Requirements	2-22
2.7.9 Rio Grande Flows.....	2-22
2.8 No Action Alternative	2-23
3.0 Affected Environment, Environmental Consequences, and Mitigation Measures	3-1
3.1 Introduction	3-1
3.2 Land Use	3-1
3.2.1 Affected Environment	3-1
3.2.2 Environmental Consequences and Mitigation.....	3-10
3.3 Transportation and Circulation	3-16
3.3.1 Affected Environment	3-16
3.3.2 Environmental Consequences and Mitigation.....	3-19
3.4 Recreation Resources	3-28
3.4.1 Affected Environment	3-28
3.4.2 Environmental Consequences and Mitigation.....	3-33
3.5 Health and Safety	3-39
3.5.1 Affected Environment	3-39
3.5.2 Environmental Consequences and Mitigation.....	3-42
3.6 Environmental Justice	3-45
3.6.1 Affected Environment	3-45
3.6.2 Environmental Consequences and Mitigation.....	3-46
3.7 Indian Trust Assets.....	3-51
3.7.1 Affected Environment	3-51
3.7.2 Environmental Consequences and Mitigation.....	3-51

3.8 Socioeconomics.....	3-52
3.8.1 Affected Environment.....	3-52
3.8.2 Environmental Consequences and Mitigation.....	3-66
3.9 Unavoidable Impacts.....	3-87
3.10 Cumulative Impacts	3-88
3.10.1 Introduction	3-88
3.10.2 Cumulative Impacts of the Proposed Project and Other Projects in the Region.....	3-88
4.0 Preparers and Contributors.....	4-1
4.1 Preparers and Contributors to the Technical Report.....	4-1
4.2 CH2M HILL.....	4-1
4.3 Geo-Marine, Inc.	4-1
4.4 Parkhill, Smith & Cooper, Inc.....	4-1
4.5 Western Resource Economics.....	4-2
5.0 References Cited	5-1

Appendices

- A Traffic Data Sheets
- B Economics Worksheets

Tables

2-1	Project Features Associated with the Action Alternatives.....	2-3
2-2	Primary Design and Operational Characteristics of the Proposed New Hatch Area Water Treatment Plant (WTP) and Associated Facilities during Phases 1, 2, and 3 for the Action Alternatives ^a	2-6
2-3	Primary Design and Operational Characteristics of the Proposed New Las Cruces Area Water Treatment Plant (WTP) and Associated Facilities during Phases 1, 2, and 3 for the Action Alternatives ^a	2-7
2-4	Primary Design and Operational Characteristics of the Proposed New Anthony Area Water Treatment Plant (WTP) and Associated Facilities during Phases 1, 2, and 3 for the Action Alternatives ^a	2-8
2-5	Primary Design and Operational Characteristics of the Proposed New Upper Valley Water Treatment Plant (WTP) and Associated Facilities during Phases 1, 2, and 3 for the Action Alternatives ^a	2-9
2-6	Primary Design and Operational Characteristics of the Proposed Expanded Jonathan Rogers Water Treatment Plant (WTP) and Associated Facilities during Phases 1, 2, and 3 for the Action Alternatives ^a	2-10
2-7	Primary Design and Operational Characteristics of the Existing Canal Water Treatment Plant (WTP) and Associated Facilities during Phases 1, 2, and 3 for the Action Alternatives ^a	2-11

2-8	Estimated Acres of Land that Would be Temporarily Disturbed and Restored or Permanently Disturbed by Project Features during Phase 1 of the Preferred Alternative ^a	2-12
2-9	Estimated Acres of Land that Would be Temporarily Disturbed and Restored or Permanently Disturbed by Project Features during Phase 1 of the River with Combined Plant Alternative.....	2-12
2-10	Estimated Acres of Land that Would be Temporarily Disturbed and Restored or Permanently Disturbed by Project Features during Phase 1 of the Aqueduct with Local Plants Alternative.....	2-13
2-11	Estimated Acres of Land that Would be Temporarily Disturbed and Restored or Permanently Disturbed by Project Features during Phase 12 of the Aqueduct with Combined Plant Alternative.....	2-14
3-1	Characteristics of Roadways Potentially Affected by Construction of the Proposed Project.....	3-16
3-2	Construction Duration and Estimated Daily Vehicle Trips for Each Proposed Facility.....	3-21
3-3	Expected Additional Traffic During the Project Construction Period.....	3-22
3-4	Expected Increase in Existing ADT and Expected LOS During Project Construction.....	3-23
3-5	Estimated Number of Staff Required to Operate Proposed Phase 1 Facilities ..	3-26
3-6	El Paso County and United States Waterborne Illness Rates for Hepatitis and Shigella Dysentery (reported cases per 100,000 population)	3-40
3-7	Health-Based Violations of Community Water Systems in El Paso County and Doña Ana County.....	3-41
3-8	Demographic Data for El Paso and Doña Ana Counties	3-45
3-9	Historical and Projected Population for Region of Impact and Cd. Juárez, Chihuahua, Mexico	3-53
3-10	Population in Individual Cities and Communities	3-55
3-11	Historical Trends in Employment	3-56
3-12	Full-Time and Part-Time Employees by Major Industry (1995).....	3-57
3-13	Civilian Labor Force and Unemployment.....	3-58
3-14	Historical Trends in Earnings and Income.....	3-59
3-15	Local Government Finances, 1986-1987 (\$Millions).....	3-60
3-16	Housing Characteristics (1990).....	3-60
3-17	Irrigated-Harvested Cropland in 1998 (Acres).....	3-64
3-18	Market Value of Agricultural Products Sold (\$ Thousands).....	3-64
3-19	Farms and Irrigated Harvest Cropland.....	3-65
3-20	Estimated Project Construction Cost, Phase 1	3-68
3-21	Estimated Employment Requirements for Project Construction, Phase 1	3-69
3-22	Estimated Value of Crop Reductions for El Paso County and the Doña Ana and Sierra County Region (Phases 1, 2, and 3).....	3-76
3-23	Project Operation and Maintenance Estimated Annual Costs, Phase 1	3-77
3-24	Estimated Value of Crop Reductions for El Paso County and the Doña Ana and Sierra County Region (Alternative E: Phases 1, 2, and 3).....	3-83
3-25	Projects Considered for Cumulative Impact Analysis	3-89

Maps

1-1	Project Region.....	1-2
3-1	Recreation Areas in the Project Vicinity.....	3-29
